

## Precious Metal Colours:

Precious Metal Colour is a unique metal varnish that produces a brilliant colour effect with high covering power. Precious Metal Colour can be used on almost any stable dry surface including glass. Apply to the object using a synthetic brush or a sponge to achieve your own creative design.

### Step-by-step instructions:

1. To apply the colour we recommend using a synthetic brush. If necessary and depending on the applied surface, paint the object a second time to achieve the perfect finish.
2. For patination, use only a little Viva Decor Precious Metal Colour. Dip a sponge in a plate filled with the Precious Metal Colour until the colour has spread evenly over the sponge. Gently dab the upstanding parts of the object with the sponge to achieve brilliant special effects. Drying time: Depending on the surface and coating thickness between 1-3 hours.

- All colours are intermixable with each other
- High performance covering power
- Photo stable
- Brilliant metallic effects
