

Crystal Gel

Crystal Gel is a special formulated transparent crystal gel. The applied surface of the painted object will produce incredible light breaking, three-dimensional effects. An extraordinary colour range gives you the freedom to explore and create your own unique designs. Crystal Gel can be speckled, stencilled or placed free hand on to the object of your choice. Using transparent objects or surfaces will produce the best effects.

Step-by-step instructions:

1. Apply Crystal Gel smoothly over the surface of the object using a modelling knife.
2. Create your own design in the wet paint by either pulling with a shaping tool or a modelling knife. Recommendation: You can also use a stencil or place gems into the wet paint.

Drying time: Depending on the applied surface and the coating thickness within 24 hours.

- Transparent
- Water resistant
- Photo stable

Crystal Gel

	Article No.	Content	Colour
	1141 000 50	250 ml	Transparent
	1141 201 50	250 ml	Amethyst
	1141 701 50	250 ml	Emerald
	1141 401 50	250 ml	Ruby
	1141 601 50	250 ml	Aquamarine
	1141 202 50	250 ml	Yellow
	1141 400 50	250ml	Red

	Article No.	Content	Colour
	1141 001 50	250 ml	Hologram
